

HM 700.99

Pump impeller display panel

Learning objectives/experiments

- familiarization with construction parts and their function

Specification

- [1] display panel with 5 various pump impellers

Technical data

LxWxH: 550x110x350mm
Weight: approx. 18kg

Scope of delivery

- 1 demonstration panel

Description

■ display panel with various pump impellers

This display panel shows five various types of pump impellers. Comprising radial flow impeller, centrifugal impeller for pump handling semi-solids, axial flow impeller, open type centrifugal impeller and star impeller for self-priming pump.
